Articulated Dump Truck TA 240

Litronic

Empty Vehicle Weight: 34,300 kg **Engine Output:** 350 kW/476 HP Max. Dump Body Capacity: 26.0 m³ Payload: 40,000 kg

EBHERR

Technical Data

Max. torque Model Type Displacement	_ Liebherr D 9508 A7 SCR/stage IIIB/Tier 4i _ 8 cylinder V-engine _ 16.2 I
Engine operation	_ electronic direct injection turbo-charged and after-cooler
	reduced emissions
Harmful emissions values	
Caaling avatage	97/68/EG stage IIIB/EPA/CARB Tier 4i
Cooling system	fan variably adjustable hydrostatically driven and temperature regulated
Air filter	dry air filter with precleaner,
	main and safety element (2 pieces)
Electrical system	
Operating voltage	_ 24 V
Battery	_2 x 170 Ah/12 V
Alternator	2 x 3-phase generator 28 V/140 A
Starter	_ 8.4 kW
Otal to:	

Transmission	electronically controlled, automatic powershift transmission, torque converter with lock-up clutch, 8 gears forward, 4 gears reverse, integrated distributor gear with powershift lateral differential
Speeds	57 km/h forward
•	16 km/h backwards
Drive train	6 x 6 standard drive train with powershift
	lateral differential, powershiftable transverse
	Omerennal on all axies

Front axle	independet suspension with hydro pneumatic cushioning cylinders, powershiftable transverse differential, 100 % locking effect
Rear axles	heavy duty axles with powershiftable transverse differentials, 100 % locking effect
Gear ratio	planetary gears in the wheel hubs

Retarder	retarder function consisting of engine brake and transmission retarder, variable adjust-
	ment, acting upon all wheels
Operating brake	2 circuit, hydraulically operated, oil cooled wet
Parking brake	disc brake acting on front and middle axle spring applied disc brake acting upon
	the driveshaft of rear axles (hydraulically
	releasable)

Design	hydraulic, 2 dual acting cylinders, combined articulated and oscillating joint with Liebherr ball bearing ring
Steering angleSteering wheel turns from	_ ± 45°
stop to stop	_ 4.5

Standard tires	. 29.5 R25
Design	earthmoving radial, tubeless
Option	wide and rock tires

Hydraulic System

Hydraulic circuit	 on-demand flow control, engine driven axial piston pump, wheel driven piston pump for emergency steering
Max. flow	344 l/min.
Max. operating pressure	250 bar
Operation	
Dumping	dump body operating lever with automatic
	engine rpm increase
Retarder	variably adjustable hand lever, retarder
	adjustment preselectable, gas pedal overrides
	retarder
Transmission	automatic mode, gear preselection, manual
	shift possible
Filtration	return filter, 12 μm

Operator	's Cab
Cab Operator's seat Comfort	elastic suspension, closed pressure ventilation, electro-hydraulically tiltable by 45° to the back, integrated ROPS/FOPS structure, tinter safety glass, wiper/washing system with inter val operation for front window, sound isolated telescopic and horizontally adjustable steering column, sliding window left and right, fresh aif liter with prefilter, additional recirculated air filter, exterior mirror and front window heater air cushioned operator's seat with headrest, lap belt, automatic weight adjustment, lengthwise and crosswise horizontal suspension,
	adjustable seat cushion inclination and length and mechanical lumbar vertebrae support
Operator's seat Premium	
(Option)	in addition to operator's seat comfort: seat
Ventilation	heater, passive seat climatisation, pneumatic lumbar vertebrae support heater and air conditioning, pressure ventila-
Heating	tion with fresh air intake and filtration, variable fan warm water heater, defrost function for front and side windows
M	
V EIII: O	

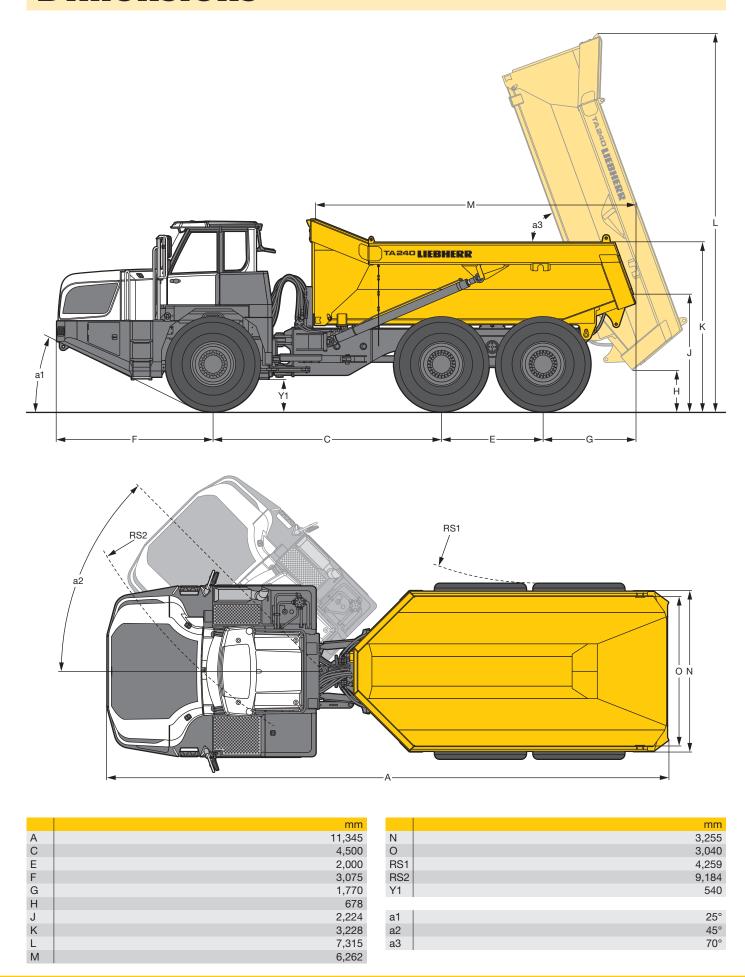

Fuel tank capacity	600 I
Urea tank capacity	60 I
Cooling system	
Engine oil (incl. filter)	65 I
Hydraulic tank capacity	330 I
Cooling oil tank brake	
Transmission	60 I
Wheel hub each	5 I
Axles	58 I
Differential	18 I

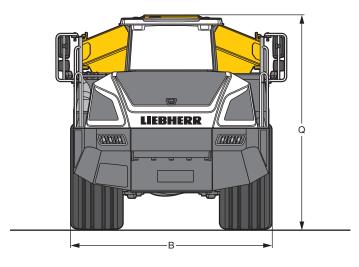

Dump Body Capacity

Volume	
swept	_ 18.8 m ³
stacked 2:1	24.5 m ³ according to ISO 6483
with flap swept	_ 19.5 m ³
with flap stacked 2:1	26.0 m ³ according to ISO 6483
Payload	_ 40,000 kg
Dumping time	_12 s
Lowering time	_8 s
Dump angle	_ 70°

Dimensions

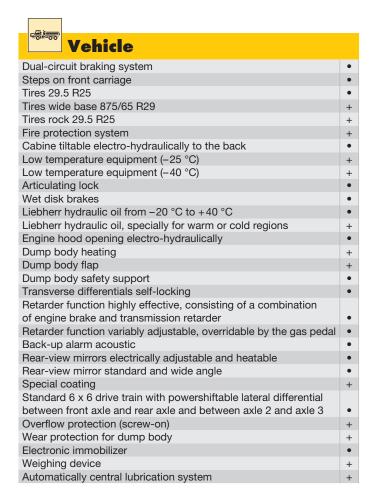

Dimensions

	mm
В	3,490
Q	3,643

Equipment

Operator's Cab	
Storage compartment	
Analog instruments for speed, rpm, fuel tank, coolant temperature at multifunctional display	•
Cab lights rear, halogen	+
Cab lights front, halogen	D
Ventilation system pressure cabine for special applications +	+
On-board computer with multifunctional display	Þ
Operator's seat Comfort	•
Operator's seat Premium	+
Fire extinguisher	+
FOPS cab protection	Þ
Bottle holder small and large	•
Rubber floor mat, removable	Þ
Dome light	Þ
Coat hook	Þ
Air conditioner	•
Electric cooler +	+
LiDAT Plus (extended Liebherr data transfer system)*	•
Radio Comfort +	+
Preparation for radio installation	•
ROPS cab protection	•
Rear view monitoring with camera**	•
- camera manning management and	+
Window heater front window	•
Sliding window front left and right	•
Front guard rear window	•
Sun blind	•
3,,	+
Additional power socket 12 V	
Additional power socket 24 V	
Trainer seat with automatic seat belt	
Cigarette lighter and ashtray	

Options and/or special attachments, supplied by vendors other than Liebherr, are only to be installed with the knowledge and approval of Liebherr in order to retain warranty.

^{• =} Standard, + = Option

^{* =} optionally extendable after one year, ** = country-dependent

The Liebherr Group of Companies

Wide Product Range

The Liebherr Group is one of the largest construction equipment manufacturers in the world. Liebherr's high-value products and services enjoy a high reputation in many other fields. The wide range includes domestic appliances, aerospace and transportation systems, machine tools and maritime cranes.

Exceptional Customer Benefit

Every product line provides a complete range of models in many different versions. With both their technical excellence and acknowledged quality, Liebherr products offer a maximum of customer benefits in practical application.

State-of-the-art Technology

To provide consistent, top quality products, Liebherr attaches great importance to each product area, its components and core technologies. Important modules and components are developed and manufactured in-house, for instance the entire drive and control technology for construction equipment.

Worldwide and Independent

Hans Liebherr founded the Liebherr family company in 1949. Since that time, the enterprise has steadily grown to a group of more than 130 companies with over 38,000 employees located on all continents. The corporate headquarters of the Group is Liebherr-International AG in Bulle, Switzerland. The Liebherr family is the sole owner of the company.
