

STEIGER & QUADTRAC

390 - 670 HP ENGINE MAXIMUM POWER - POWER MANAGEMENT
354 - 608 HP ENGINE RATED POWER

HELPING FARMERS MEET THE WORLD'S DEMANDS.

The world keeps demanding more from your farm. More food. More grain. More fuel. And all from less available land. Case IH helps you meet these demands with innovative technologies created from listening to what farmers want. By offering equipment that delivers unmatched power and performance, built with the understanding that you need maximum uptime under all conditions – and an operator environment that helps you through it. The Steiger series tractors let you farm how you see fit and make sure you'll be ready for the challenges ahead.

PAGE 22	SPECIFICATIONS

Engine Power Management delivers up to an **additional 62 hp**, giving up to 10% additional performance.

The hydraulic system gives you outstanding power and precise control, with the option of **up to 428 litres per minute** flow capacity.

PRODUCTIVITY. POWER AT THE HEART OF CROP PRODUCTION.

The engines in the Steiger and Quadtrac range are designed to deliver maximum horsepower, with the engine power management delivering up to 62 more horsepower if needed, for navigating undulating fields, steep roads and meeting the higher PTO and hydraulic power demands of today's larger, more productive implements. Putting power to the ground using the unique Quadtrac design track system will minimize soil damage from the impact of using heavy equipment and maximize crop yields.

Optimum traction at all times with minimum ground pressure makes the Quadtrac the ideal tractor for the heaviest ground conditions.

Conventional articulated steering gives the Steiger and Quadtrac Series full-power turns within 5.7 m.

HIGH CAPACITY MEANS HIGHER PRODUCTIVITY.

Steiger and Quadtrac engines are designed by CIH and built by FPT to deliver maximum horsepower smoothly and efficiently. Electronically controlled engines in Steiger and Quadtrac tractors ensure peak power growth at low fuel consumption.

If engine rpm drops under load, Engine Power Management unleashes up to 62 more horsepower. With that kind of power growth, you have the boost you need to handle the most difficult terrain in the field and on the road. To make the most of the new series four-wheel drive, specify high-capacity hydraulics, heavy-duty hitch and powerful PTO; when you need to lift, lower, and power implements, these systems help you do more work.

IT'S THE HEART OF THE MOST POWERFUL TRACTOR IN THE INDUSTRY.

Used in every Steiger tractor from the 350-hp row crop version to the industry-leading 600-hp model. It's a proven design first used in Steiger tractors in 2006 and later incorporated in Case IH Axial-Flow® combines. The 400-hp to 500-hp Steiger tractors feature a **12.9-litre engine** with a single-stage turbocharger to properly match the engine with horsepower requirements. The 550-hp and 600-hp Steiger models feature a two-stage turbocharger system – a small turbocharger for low-RPM responsiveness and a second, larger one for maximum boost at high RPMs.

CARED FOR BY CASE IH EXPERTS FROM CONCEPT TO CALIBRATION.

The engines in Steiger tractors come from Case IH sister company FPT. And we engineer, design and test them at our Burr Ridge, Illinois, facility. It's the same place where our high-horsepower tractors are engineered, and it **ensures we maintain an exceptional standard of durability and reliability**. FPT engines also mean that Case IH dealer service technicians are expertly trained to maintain your engine – at your local Case IH dealer.

HYDRAULICS AND PTO THAT HELP MAXIMIZE YOUR YIELDS.

The option of up to 428 litres per minute flowing into up to eight hydraulic remote valves. That's enough hydraulic flow for even the biggest air seeders in the industry.

The new flow-compensated, quick-connect valves make your operation even more efficient by maintaining precise flow and pressure – even in the most severe conditions. Set the system how you want and it adjusts for changing conditions throughout the day.

A 1000 rpm PTO unit can be added to any Steiger and Quadtrac tractor to deliver up to 473 hp at the PTO shaft.

ECONOMY. THE BOTTOM LINE COUNTS.

Case IH customers make our products more efficient and easier to use because they help us develop technology. Our engineers work with farmers in the field then use that feedback to improve our designs. Case IH dealers and technicians engage those who use our products, get to learn how they work and find ways to improve results. It's how we've created solutions like APM (Automatic Productivity Management) a system which allows the engine and transmission to communicate and establish the optimum performance range for the required speed and load, providing the greatest economic efficiency.

APM (Automatic Productivity Management) and the optional AFS (Advanced Farming Systems) optimise efficiency while you concentrate on your work.

MAXIMUM UPTIME.

Keeping you working in your fields through longer service intervals of 600 h.

AFSTM

CASE IH AFS (ADVANCED FARMING SYSTEMS) ADDING PRECISION.

Team your Steiger with **Case IH AFS** and gain the benefits of monitoring and controlling Case IH implements, ISO11783 implements, 3rd party controllers; prescription planting and the recording of machine variables and as applied data for reporting.

MANAGE. PLAN. PRESCRIBE. REPORT. ANALYSE. SUCCEED.

Manage your farming operation with the latest AFS[®] desktop software package from Case IH.

COUNTING THE COST OF WORK DONE.

No matter how much horsepower is needed, the new Steiger and Quadtrac range delivers with improved fuel consumption that reduces fuel inputs by up to 9%. The new Case IH engine technology benefits the farmer as it improves horsepower, engine responsiveness, fuel economy and engine reliability. In addition, running with minimal down time and extended service intervals with easy and effective routine servicing provide more savings through the years of improved productivity.

SET THE GROUND SPEED YOU NEED-WE'LL DO THE REST.

The Diesel Saver™ Automatic Productivity Management system takes the guess-work out of setting the right gear/rpm combination. It does the job for you. Wet spots and hills pose no problems and should not affect your fuel economy. **Diesel Saver keeps you moving at the same speed and gives you the best fuel economy** and power performance through changing field conditions. No one else offers a more effective or simpler solution.

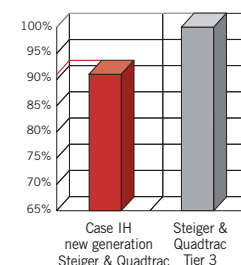

A DEPENDABLE TRANSMISSION THAT DOES MORE FOR YOU THAN JUST SHIFT GEARS.

The 16-speed, full powershift Steiger transmission produces smooth shifting and reduces fatigue at the end of a long day in the field. It accomplishes this by using pulse-width modulation, which maximizes the application of power. Other designs operate with less efficiency and waste power.

PRECISION COMPONENTS THAT MATCH THE WAY YOU FARM.

The optional AFS Pro 700™ touch screen monitor can be **integrated into the armrest** to provide a clear overview of vehicle settings, video inputs and simultaneous command and control of ISOBUS-compatible machinery.

EFFICIENT ENGINES.

The new FPT designed engines fitted on the new Steiger range provides **up to 9% lower fuel consumption** compared to previous Tier 3 engines.

AN EFFICIENT AUTO-GUIDANCE SYSTEM, FROM FACTORY TO FIELD.

The optional factory-installed AFS AccuGuide™ autoguidance system offers unsurpassed dependability and convenience. Building the system with the tractor at the Case IH plant ensures correct installation, testing and a higher level of quality, and your tractor arrives closer to field ready when it gets to the dealer because you don't have to wait for a technician to install additional components. **An autoguidance system simplifies your work.**

PARALLEL – IDENTICAL – REPEATABLE.

They're words you'd expect an auto-guidance system to deliver for you, and it does. Eliminating guesswork of row swath spacing to ensure each one is identical means fewer end-of-row turns and overlaps. It maintains perfectly straight and repeatable rows with RTK accuracy and controls traffic patterns and decreases compaction – benefits that bring higher yields. This adds up to less stress and fatigue for you at the end of the day, meaning you're more relaxed and prepared for the next day's work.

COMFORT & SIMPLICITY. WORKING WITH THE BEST.

The comfort of the operator's environment is a priority for the highest operator productivity. The industry leading Case IH Surveyor cab improves ride comfort in all conditions, with the option of both cab and seat suspension systems. At the same time, operation is made easy with the Case IH Multicontroller armrest, maximising precision in vehicle and implement control. Controls integrate advanced innovative technology such as APM – Automatic Productivity Management for optimising vehicle settings and AFS – Advanced Farming Systems providing the architecture for fully automated precision farming.

Key functions are at your fingertips. Multicontroller™ Drive Logic armrest featuring ICP™ intuitive control panel so key functions are at your fingertips.

At-a-glance status information provided by the A-post mounted instrument cluster with integrated performance monitor.

360° visibility for clear line of sight in all directions.

Very low noise levels inside cab.

Smooth ride with optional seat suspension and cab suspension.

Ideal working environment with electronic climate control.

TAKING THE STRAIN OUT OF A TOUGH JOB.

It's a tough job and it's a job that has to be done right now.

Good to know that your tractor is ready and waiting with the most comfortable cab in the business.

HARD WORK SHOULDN'T BE A PAIN IN THE NECK.

The optional autoguidance systems give you more freedom in the cab to look back and check on implement operations, so you don't want a tractor seat that forces you to keep looking forward. **The exclusive, industry-leading 40-degree, right-hand swivel seat** in Steiger tractors gives you a 180-degree full field of vision that keeps you from having to strain your neck all day. The cab controls are on the upper right too so everything is in your field of vision. In addition, the MultiControl Armrest console brings all vital operations into one simple controller – adjust your engine speed, gear, hitch, hydraulics and more without even moving your hand.

WORK LONGER AND STRONGER WITH THE INDUSTRY'S FIRST SUSPENDED CAB.

The optional Case IH Cab Suspension with shock-absorbing components at each corner of the cab stabilizes front-to-back, side-to-side and up-and-down motions, giving the operator a smooth ride no matter what terrain is underneath. A combination of springs, pads and mounts fully isolates the cab from chassis-created vibrations, which leads to freedom from repeated jarring and bouncing, allowing you to have greater focus on the job and more control over your tractor, without the fatigue and soreness that comes at the end of a long working day.

STAY RELAXED, STAY ALERT.

automatic climate control lets you select the **perfect temperature** for continuous comfort.

ADJUSTABLE TO YOUR DRIVING POSITION.

Equipped with air suspension, the swivel seat comes with controls and optional monitor integrated into the Multicontroller armrest. The armrest moves up and down and rotates with you if you turn the seat. The steering wheel can be tilted and height adjusted to give you the ideal healthy posture at work.

Take your pick of lighting packages including standard halogen along with optional High-Intensity-Discharge (HID) lighting technology.

Additional rear lighting is also available to improve versatility during work, as well as helpful egress lighting for exiting the tractor in the dark.

A SERIOUS WORD ABOUT SIMPLICITY.

Feedback from customers clearly indicates that tractors equipped with the Multicontroller and ICP (intuitive control panel) are the easiest to understand and operate. We have done the sums and found that compared to competitors' systems the Case IH control concept can save you nearly 30% on the time it takes to become fully acquainted with the way the tractor works.

The fact is this time saving in the first month adds up to more than 80 hours which, if converted into driver's wages (multiplied by the number of drivers), becomes serious money. To put it simply, it puts money back in your pocket from day one. Do the maths – simplicity really adds up.

A-POST INSTRUMENT DISPLAY

The displays are clear, concise and easy to read. The **integrated Performance**

Monitor provides additional feedback on tractor systems status, percent of slip, area worked and service reminders.

The driver is also alerted of any warnings, with the engine shutting down automatically to protect your investment if need be.

MULTICONTROLLER™ DRIVE LOGIC ARMREST

The Multicontroller – featuring drive logic – and the ICP intuitive control panel plus the optional AFS Pro 700™ touch screen monitor integrate **all the tractor's functions into the armrest**. Here, you have all the functions you need in one place: speed selection, direction changes, throttle, Headland Management Control, electronic remote valves, rear hitch controls, PTO, joystick and much more. This operator-friendly environment gets even a novice driver working effectively on day one.

MAXIMUM UPTIME IS ALWAYS ON OUR MIND. BECAUSE IT'S ALWAYS ON YOURS.

Planting and harvesting seasons don't wait for downtime. To get maximum yields, you need to stay up and running. Steiger tractors are designed to keep you there. From the frame construction to the heavy-duty powertrain. Case IH dealers are certified to maintain every component of your tractor, including the engines. When you buy a Steiger tractor, we want you to use it. Not wait for it to be usable.

A HEAVY-DUTY FRAME FOR THE MOST DEMANDING WORK.

Steiger tractors have always featured a longer wheel base with built-in weight. That package gives you better traction and more front-end weight. And no competitor matches the Steiger's **1/2-inch thick steel frame**. High-horsepower jobs put tremendously demanding forces on a tractor. Steiger tractors perform so well they're used worldwide in construction applications because they're the toughest ones around. That's durability you can use for those demanding jobs on your farm.

TRACTORS THAT LOOK AS GOOD AS YOUR FIELDS.

Your tractor should look as strong as it performs. **The new Steiger tractor is the first tractor in the industry to use Class 6 automotive-grade paint.** (Others use Class 3 paint.) That means a Steiger tractor will hold up to the different, harsh conditions that pound it day after day, from spring to autumn. And stronger resistance to fading means better resale value for your new Steiger tractor.

A FUEL TANK THAT LASTS AS LONG AS THE TRACTOR.

Stopping for fuel before finishing the day's work – because field conditions can't wait and there's weather setting in – wastes valuable time. **A Steiger tractor fuel tank has a capacity up to 1,760 litres and is built into the frame.** That should last more than a full day's work, and the steel design adds strength and durability to the entire chassis. No one else offers that kind of durability because no one else offers a tractor with its fuel tank built into the frame. It's all part of giving you everything you need to be ready to stay in the field – under all conditions.

QUICK AND EASY DAILY MAINTENANCE THAT GETS YOU OUT OF THE FIELD WHEN THE WORK IS DONE.

Checking your tractor's transmission, engine oil or hydraulic fluid can be done at ground level. **No steps to climb or hard-to-reach places to squeeze through.** Because your tractor needs to keep running, and the Steiger makes it easy for you to keep on top of maintenance as quickly and effortlessly as possible. Case IH dealers and technicians are ready to handle any maintenance work, including on the engines. There's no need for the hassle and wasted time of going to a third-party engine dealer for service.

EXPERIENCE & QUALITY. WORLD RECORD BREAKING DURABILITY.

More than 50,000 Steiger and Quadtrac tractors have been built at the Case IH plant in Fargo/USA. From the finish of the paintwork to the core of the heavy-duty frame, these tractors are built to last and are delivered with the specifications you need to get your work done. Start right now and keep producing top productivity year after year.

CHOOSE THE TRACTOR WITH BUILT-IN EXPERIENCE AND QUALITY.

Equipment availability is critical in farming because, when it's time to get going, you need to know that you have every possible resource at your disposal. That is why it is important to choose a tractor that is backed by a heritage of quality, built in the USA: Case IH has been developing reliable agricultural machinery for more than 160 years and Case IH took the lead in pioneering Automatic Productivity Management, well ahead of the rest of the field. More than 50,000 Steiger tractors have been sold.

If you are looking for a tractor that is durable from the engineering to the paintwork, easy to service (600-hour service interval) and promises a high resale value, then you are looking for the World Record Holder.

THE WORLD RECORD HOLDER.

This Series from Case IH combines the tradition of the legendary Steiger tractors with the requirements of the 21st century. No compromise large acreage technology for maximum productivity – as proven in the industry's highest accolade: the **24 hour ploughing World Record.**

PARTS & SERVICE.

Maintain the productivity of your investment.

Case IH and its dedicated dealer network provide excellent support when you take delivery of your new machine and whilst it remains in your ownership. On the farm, you can rely on trained service professionals to maintain the productivity of your investment.

DEALER.

Skilled business advisor at your dealership.

Demand more from your Case IH dealership.

Purchasing a standalone piece of new equipment? Keeping a whole fleet up-to-date? Whatever your size of operation, contact your local Case IH dealership for professional advice on your business needs. Case IH knows your farming needs best.

DO NOT RISK YOUR MACHINE'S LIFE. BUY CNH ORIGINAL PARTS!

Protect the value of your investment. Behind every Case IH product stands an extensive parts logistics organisation, stocking parts for products both old and new. Choosing to fit genuine Case IH parts will maintain the safety, value and performance of your original investment.
